

Emma Premium 25 Hybrid Mattress

The perfect balance of gentle comfort and reliable support. 7 Awards in Europe

- Medium – pleasantly supportive with gentle lying comfort
- 25 cm
- Hybrid with 5-zone spring core & MemoryAdapt comfort layer

Stevigheid en liggevoel

Our 5-zone mattress with MemoryAdapt foam adapts perfectly to your body shape. It provides targeted support for the back and at the same time relieves the shoulders and hips. The result: balanced comfort, natural spinal alignment and restful sleep – so you wake up full of energy.

Opbouw en materialen

Constructie - Structure

1 The easy-care cover - gentle on your skin

The Emma cover is soft and comfortable on the skin. It can be completely removed and washed easily - for a longer life of your mattress.

2 The layer with maximum breathability

Our point-elastic Airgocell® layer is particularly breathable. The open cells allow air to circulate, wick away moisture and ensure a pleasantly cool sleeping climate.

3 The layer with optimal pressure relief

The MemoryAdapt® layer gently adapts to your body shape. It distributes the weight evenly, reduces pressure points and thus ensures ergonomic, comfortable sleep.

4 The layer for flexible freedom of movement

The SupportBase® layer cushions your body, relieves sensitive pressure points and gently bonds with the core layers for supportive, balanced comfort.

5 The layer with 5 ergonomic zones

Our continuous spring system is divided into five zones that provide targeted support for the head, shoulders, back, hips and legs and adapt optimally to your body.

6 The layer for a secure, stable hold

The lower cover provides strong support to the bed frame, so your mattress stays securely fixed even when you move and is stable every night.

Mattress cover (standard cover) 100% polyester
